

QR Code Generator

How to generate your organisation's QR code in Canva

 **Think:** A QR code for signing up your teams (sign up link) or asking for donations (fundraising page link).

Step 1: Open the Canva template

- Click the [template link here](#) and select "Use template" to open it in Canva.

Step 2: Edit the QR code

- Double click on the existing QR code in the design.
- The QR Code panel will appear (usually on the left-hand side).

Step 3: Update your URL

- Delete the existing URL.
- Paste in your organisation's unique Stepember sign-up or fundraising page link.
- Click "Generate code."
- Your QR code will automatically update.

Step 4: Download your QR code

If you'd like to save the QR code as a file:

1. Click "Share" (top right corner).
2. Select "Download."
3. Choose PNG or JPG as the file type.
4. Under Select pages, choose the page with your QR code.
5. Click Download.

OR: Copy directly into another design

- Click on the QR code.
- Copy and paste it directly into another Canva design you're working on.
